

**Dundas Valley School of Art**

**Instructor:** Barry Hodgson

**Class:** Developing Sketches in the Studio

**Students should bring:**

- Several sketches to discuss and analyze for development.
- Sketching materials to make trial versions as part of the analysis process.
- Materials for your studio pieces. Your ideas about what you want may change during the analysis phase. You may be able to acquire materials in the Day 1 lunch break or after class for Day 2. However, in case you cannot acquire new materials in time, you should have something prepared.
